SCRIPT 1 **Band 5 to Band 8 Transformation**

HOOK

Student scored just Band 5 in IELTS.

And because of that score, his plan to pursue his Master's abroad was getting delayed.

But then something changed.

BODY

Instead of simply giving him more IELTS materials and more mock tests, we first identified exactly where he was losing marks.

Then we created a personalised 1-on-1 training plan around his weaknesses.

His trainer worked individually with him on: Listening, Reading, Writing, Speaking.

More importantly, he received personal feedback, corrections and continuous practice based on his performance.

And after completing the training, his score improved from: Band 5 → Band 8

SCRIPT 2 **Band 8 Educational Angle**

HOOK

“How do students actually reach Band 8 in IELTS?”

It's not simply by studying English for more hours.

BODY

Band improvement comes from knowing: what the examiner is looking for, where you're losing marks, which mistakes are reducing your score, and how to improve each module strategically.

That's why our IELTS training begins with understanding your current level and then creating a personalised preparation plan.

In our 1-on-1 online sessions, your trainer works directly with you on your weak areas, provides personal feedback and helps you practise with the right strategy.

SCRIPT 3 **Working Professional**

HOOK

Working full-time and preparing for IELTS?

You don't have to choose between your job and your IELTS goal.

BODY

The problem isn't always lack of time.

Many working professionals waste the little time they have by preparing without a clear strategy.

That's why personalised 1-on-1 IELTS training can make the preparation process much more focused.

Your sessions can be structured around your current level, target band, exam timeline and available schedule.

Instead of spending hours wondering what to study next... you know exactly what to work on.

SCRIPT 4 **"Why Am I Stuck at Band 5/6?"**

HOOK

You're practicing IELTS regularly... so why are you still stuck at Band 5 or 6?

BODY

Because practice alone doesn't tell you what you're doing wrong.

You may be repeating the same writing mistakes. Using the wrong speaking structure. Losing marks in reading because of poor technique. Or making avoidable mistakes in listening.

The first step isn't always more practice. It's finding your score gaps.

Our 1-on-1 IELTS training focuses on identifying those gaps and building a preparation plan around them.

Q4. "What was your final score?" Student: "I scored [X band]."

Q5. "What did you like most about the training?" Student: [genuine answer]

CLOSING

"If you're preparing for IELTS and want personalised guidance, I would definitely recommend [Institute Name]."

SCRIPT 6 **"One-on-One Is Different"**

HOOK

"Why should you choose 1-on-1 IELTS training instead of another group class?"

BODY

In a group class, everyone may receive the same lesson. But every student's problems are different.

One student may struggle with Writing. Another may struggle with Speaking. Someone else may have problems with Reading speed.

That's why our 1-on-1 approach starts with understanding the individual student.

Your training is built around: your current level, your weak areas, your target band, your exam date, and your progress.

SCRIPT 7 **Canada / Study Abroad Angle**

HOOK

Your study-abroad dream can be delayed by one IELTS score.

BODY

You've shortlisted your university. You've planned your finances. You've prepared your documents.

But there's one thing left: your required IELTS score.

Instead of leaving your score to chance, prepare with a structured plan based on your current level and target.

Our 1-on-1 online IELTS coaching focuses on personalised guidance, practice, evaluation and feedback across all four modules.

Band 7+ is your goal. But do you know what is stopping you from reaching it?

BODY

Before joining another IELTS class, find out exactly where your current score stands.

At [Institute Name], we assess your current level, identify your weak areas and help you build a targeted preparation strategy.

With 1-on-1 online training, you get personalised guidance instead of a one-size-fits-all approach.

9. Landing Page Strategy

The landing page should not start by dumping course features. The visitor comes from an ad with a specific problem, so the page should continue the exact same story.

Ad says	Landing page should immediately say
“Band 5 → Band 8”	“Stuck at Band 5 or 6? Let's identify what is stopping you from reaching your target band.”

This creates message match.

Proposed page structure
