PAGE AT A GLANCE

One page, one promise, one action

The page is built around the free IELTS assessment. The VSL carries the argument; every section below it restates one piece of that argument for scanners and ends in the same button. Fees are published (only British Council does this in the competitor set) because transparent pricing filters low-intent leads before the assessment call.

02 TRANSFORMATION

From "I don't know why I'm losing marks" to "I know exactly what to improve."

Before **[6.0]** practising daily, score not moving

Personalised training → [6] weeks →

After **[7.0]** real score report

What changed? Not more practice. A structured process that found the exact places marks were being lost — and fixed them one at a time.

"I'd done 30 mock tests on my own and stayed at 6. The assessment showed me my Writing was the only thing holding me back. Six weeks later: 7."

[Name], [City] · Band 6 → 7

Designer notes · 01–02: Video is the hero visual, 16:9, autoplay muted with captions, sound on click. On mobile: headline → video → button → form (trust strip collapses to 2×2). Section 02 ships with the band card only until a real student result and consent arrive — no placeholder names on the live page.

Why you're stuck, the method, the modules

03 WHY YOU'RE STUCK

You Practise IELTS Regularly. So Why Isn't Your Score Moving?

Mock tests. YouTube videos. Vocabulary lists. Speaking English every day. Still stuck at the same band. Because practice shows you *that* you're losing marks — never *where* or *why*. To move a band you need four things practice can't give you:

Where you're losing marks
A mock gives a score, not a breakdown. Band 6 in Writing could be three different fixes.

What the examiner expects
The band descriptors are public — nobody translates them into what *your* answer is missing.

How to correct each mistake
A Band 8 sample doesn't tell you the three changes that take *your* 6 to a 7.

How to apply it under pressure
A technique you understand but haven't drilled with feedback disappears at minute 40.

That gap — between practising and knowing what to practise — is what the free assessment closes on day one. ↓

04 THE SKY VOICE METHOD

Your Preparation Should Be Personal. Because Your Weaknesses Are.

1	2	3	4	5	6
Assess	**Identify**	**Plan**	**Train**	**Evaluate**	**Improve**
English level on the CEFR scale (A2–C1)	L · R · W · S tested separately; exact weak question types	Written roadmap: target band, priorities, exam date	Live online, 1-on-1 or group of 3–5, on your weak modules	Personal corrections against the band descriptors	Repeat until practice scores hit target. Then book the exam

Every student goes through all six — but what happens inside steps 3 to 6 is built from *your* assessment.

Start with Step 1 — it's free

05 FOUR MODULES · ACADEMIC & GENERAL

Every Module. Trained the Way the Examiner Marks It.

Listening
All 10 question types, distractor traps, spelling & plural errors, accuracy under one-play pressure

Reading
Skimming/scanning by question type, T/F/NG logic, paragraph matching, 40 Qs in 60 min

Writing
Task 1 & Task 2 structure, coherence, grammar range — line-by-line personal feedback on every task

Speaking
Fluency without fillers, Part 2 structure, Part 3 depth, pronunciation — recorded, scored, replayed

IELTS Academic
University admission abroad · professional registration (nursing, medicine, engineering, teaching)

IELTS General Training
Work visas & migration — Canada PR, Australia, UK, New Zealand. Not sure? The assessment sorts it in 2 minutes.

Designer notes · 03–05: Section 04 is the signature visual — six steps in a row on desktop, vertical on mobile, steps 1–2 highlighted as "free". Use a short looping screen recording of a marked essay beside section 03 if space allows (the same clip used in the VSL at 0:38).

Portal, audience, format & fees

Designer notes · 06–08: Portal screenshots are the most differentiating visual on the page — no competitor shows theirs. Keep both prices visible, no toggle. "The maths" box sits directly under the prices so the fee is read against ₹17,000, not ₹0.

06 PRACTICE PORTAL

Practise Inside the Exam Format. Get Help the Moment You're Stuck.

Classes teach the technique. The portal is where you make it automatic — same screen layout and timing as the real computer-delivered test.
